PROFESSIONAL EXPERIENCE

SOCIÉTÉ GÉNÉRALE PRIVATE BANKING

Quantitative Analyst Intern

Paris, France

Apr 2025 – Sep 2025

- Internship as a quantitative analyst within Société Générale Private Banking (SG 29 Haussmann)
- Monitoring of a green asset portfolio (AuM: €790M): green bonds, inclusion/exclusion of securities based on extra-financial criteria, and ongoing calculation of key portfolio statistics
- Recalculation of ESG scores using MSCI and Bloomberg data, resulting in a 6% increase in the number of issuers classified as "investable."
- Statistical analysis (performance, ESG exposure, and other key indicators) across SG 29 Haussmann funds and MSCI indices (Europe, US, Emerging Markets, World) totaling €8.73bn in AuM.

TECHNIP ENERGIES

Cost Optimisation Intern

Paris, France

Mar 2024 – Sep 2024

- Financial modeling and BI reporting within a Design-To-Cost approach on a project with a CAPEX €200 million, leading to significant cost reductions during the design phase
- Created a model in Python with over 15,000 cases of the initial business model to model different cases and values for inputs (raw materials, construction costs, etc.) and outputs (NPV, Payback, IRR, EBIT)
- Actively worked on a project to digitalize the cost estimation process which led to a significant decrease in time spent estimating the cost of a construction project

KPMG
